## Pet Portraiture at Castle-in-the-Sand, 3701 Atlantic Avenue, Ocean City, MD 21842

**Sit Up, Bark and Meow!** Well that's a novel command to clients, both humankind and furry ones! If only the humans were as easy as the critters.

Pamela Setchell has owned and operated Viewpoint Photography since 1989. However, her photographic career stems back to the late 1970's. She has been recognized for her talents by receiving many awards in the General Collection and Loan Collection. In 1994 she was one of two photographers to have all four of her prints in accepted into the Loan Collection. Her work has appeared on TV, along with Vanity Fair, Fortune Magazine and hosts of other publications.

Viewpoint Photography is known for a variety of photographic work: interiors, products, family children and weddings, but Pam's passion has been working with animals alone and their human companions. She has a true love for pet portraiture and a great respect for animals and what they contribute to our lives.

In this seminar you will discover the do's and don'ts of working with pets, then learn to work with the pet's pet – **the human!** Pamela will be discussing sound basics, unique experiences and marketing & sales ideas to bring to the business. Hopefully a live portrait session will be included to present a hands-on learning session. Even if you have **NO** desire to pursue the pet business, you will learn wonderful ways to get animals to cooperate for a portrait session with a bride, child or a family portrait that includes the four-legged family member. It will be impossible to leave this seminar without learning something!
